April 1, 2022

Dear Valued Customer,

Global market dynamics continue to impact logistics, raw material costs, and energy making it necessary for price adjustments within Momentive's Agriculture and Process Industries product line.

Momentive Performance Materials Inc. and its affiliates will increase prices on silicone additives within its Agriculture and Process Industries business segments by up to 20%, and in some cases >20%. Specific increases will vary by product and region, as contracts allow.

These increases will be effective for all product shipments on or after May 1, 2022. These price increases are in addition to any other surcharges or price increases previously implemented.

Your Account Representative will contact you shortly to discuss the specific impact of this increase on the products that you purchase from Momentive.

Sincerely,

A handwritten signature in black ink, appearing to read "David Rusinko". The signature is fluid and cursive, with the first name "David" being more prominent than the last name "Rusinko".
